

SANDIP FOUNDATION'S
SANDIP POLYTECHNIC, NASHIK
DEPARTMENT OF MECHANICAL ENGINEERING

Date: 17/01/2018

Name of Event: Industrial Visit to Protina Mashroom Farm, Trimbak Road, Nashik.

Date of Event: 17/01/2018

Resource Person: Protina Mashroom Farm, Trimbak Road, Nashik.

Objectives:

1. To observe the working of Vapor Compression System.
2. To understand the process of Mashroom Farming.

Outcomes:

In the industrial visit at Protina Mashroom Farm, Trimbak Road, Nashik, students observed the Vapor Compression System. In this mashroom farm refrigeration system was used for maintaining lower temperature required for mashroom farming. Different components of vapor compression system i.e. compressor, condenser, evaporator and expansion valve have observed.

In Protina Mashroom Farm students observed the process of Mashroom farming at lower temperatures.

Participant: TYME Students
