

SANDIP FOUNDATION'S
SANDIP POLYTECHNIC, NASHIK
DEPARTMENT OF MECHANICAL ENGINEERING

Date: 13/01/2018

Name of Event: Value added program on Hydraulics and Pneumatics.

Date of Event: 08/01/2018 to 13/01/2018

Resource Person: Prolific Systems, Pune

Objectives:

1. To understand the working Hydraulic and Pneumatic circuits and their components.
2. To know the use of Hydraulic and Pneumatic circuits in automation.
3. Troubleshooting of components in Hydraulics and pneumatics.

Outcomes:

In this value added course students understood the working of different Hydraulic and Pneumatic circuits used in mechanical industries. Automation by using Hydraulic and Pneumatic circuits has been thoroughly explained. Students also understood the actual working and troubleshooting of components in Hydraulic and Pneumatic circuits.

Participant: TYME Students
