Industrial Visit

Name of Event : Industrial Visit to “Nashik Engineering Cluster (NEC), Ambad MIDC Nashik”

Date of Event : 20/10/2022

Resource Person : Mrs Hemangi Patil
HR, NEC, Ambad MIDC, Nashik.

Objectives:

- To understand the function & application of various machines used in Industries.
- To understand the process of product manufacturing & importance of product cycle time.

Outcomes:

“An industrial visit had been arranged for students of mechanical Engineering, Sandip Polytechnic. The purpose of visit was that, the students must understand the product manufacturing process along with importance of product production cycle time. Students were able to see various product manufacturing machinery used in industries based on applications.

Machines like 4 & 5 Axis CNC, VMC Machine, and WEDM were demonstrated to the students. Testing Lab, Calibration lab and their application for industrial & academic scholar project development were explained to students that will be useful during learning and professional life.

Later **HOD Prof J. R Wadile**, Prof M V Thorat & Prof S K Aher thanked HR Mrs Hemangi Patil for giving her valuable time and sharing knowledge to our students.

Participants- Mechanical Engineering Students
