# CHAIRMAN'S MESSAGE

## From Chairman's Desk

**Learn from your experience, for there is no greater tutor than life itself.**

I am happy to pen down a few words as prologue to our E-magazine which is exclusively meant for churning out the latent writing talent which bears immense potentiality of sharpening our students' skills as part of their overall personality development. I congratulate all the team members and contributors of this E-magazine for bringing out such a beautiful magazine.

Walk with those who feed your mind with motivation to further your mission. Wake up hungry for success every day; your drive for success must match the ferocity of a hungry lion attacking his prey every morning.

An educated person without morals is like a room without windows. I think that morals are what ground us as a society, and without morals we would have no light to guide our educated minds. We, at Sandip Foundation, strive to make our students reliable technocrats and trustworthy citizens of India. My staunch faith and conviction is that our students would carve a niche in their career and life by going lineage and heritage through this temple of learning.

I would like to take this opportunity to reiterate that there is no substitute to hard work in any venture. Therefore, it should be our endeavor to give our best in our areas of responsibilities and aim at achieving excellence for our institution.

I wish all success to this venture.

**HON'BLE DR. SANDIP N. JHA**  
Chairman, Sandip Foundation

# PRINCIPAL'S MESSAGE

## From Principal's Desk

“A dream is not that which you see while sleeping, it is something that does not let you sleep!” Dr. A.P.J. Abdul Kalam

We, at Sandip Polytechnic, believe in the same philosophy. Sandip Polytechnic started its journey to produce world class technocrats with competent skills in various technologies for serving the society. Our every effort ensures that we achieve our goals.

Competent faculty is our asset. Each and every team member is passionate in achieving our goal. We always motivate our faculties to be an active part of our team.

Nature is our friend here in the pleasant environment of Sandip Foundation. It rejuvenates the body, mind and intellect of our students as well as staff members. The aim behind all our co-curricular and extra-curricular activities is to provide an impetus to our young minds to explore new dimensions of life and to do innovation in their field.

Some people think in terms of problem, some people think in terms of solution. We, at Sandip Polytechnic, insist our students to be a problem solver. Students are motivated to make some mini and micro projects to utilize their knowledge practically. This is a platform to showcase their creativity. To increase employability of our students, certain Skills Development Programs have been introduced and implemented effectively by our institute.

Due to globalization, liberalization and privatization, there is a cut throat competition in the market. We, by imparting practical knowledge to our students, make them industry ready. So the skill set gives them confidence to withstand the competitive world.

Come, feel the difference. Rejuvenate mind and intellect.

We assure quality education at its best at Sandip Polytechnic and Sandip Foundation.

**Prof. P. M. Dharmadhikari**

Principal, Sandip Polytechnic

### NEW YEAR'S POEM

#### Promises To Keep.....

We resolve to turn a new leaf in our lives  
Yet go back to whining old ways in no time

Why do we break promises ever so often  
When we want a better future than our past or present?

Why do we not care for ourselves  
Yet want a story that the world will tell?

But if you want to change your story forever  
Inspiration and motivation will have to go together

An inspired heart can move mountains and cut the seas  
Don't the stories of these people inspire thee?

Then comes the role of a motivated mind  
If left idle it can behave weird many a times

Convince the mind before getting down to work  
Else you will have to fight yourself first

But the protagonist of your story has the biggest role to  
play  
If you don't care, then nobody will anyway

So be the change, and script your story your way  
Start with fulfilling the promises you made

It is said a journey of thousand miles begins with one step  
Likewise, success in future depends on the promises you  
kept

We have a long way to go and many promises to keep  
So treasure every moment and every New Year equally

### Should Education be Free

There are many discussions these days about whether education should be free. Some argue that education is a fundamental human right that should be available to everyone, regardless of their ability to pay. On the other side are those who argue that education should be a privilege, not a right and that those who can afford to pay should be the ones who have access to the best education. Where do you stand on this issue?

This era is characterized by the important role education plays in empowering people to think for themselves, make their own decisions, and stand up for what they believe in. With education, people can learn about the world around them and make informed decisions about the best way to move forward. Education is also the key to creating change in the world. By educating people about the critical issues, they can become more involved in their community and work to make a difference. Education is the key to success. It is the great weapon of this era. However, it is unfortunate that it is governed by corruption these days. Many honest and dedicated educators are fighting against corruption.

### Gautam Buddha

108 SNAILS We all know who is Gautam Buddha. He is popularly known as Buddha or Lord Buddha was a Sramana who lives in ancient India But most of us don't know about the reason behind 108 snail on Gautam Buddha's hair (Covered with 108 snail). As per we all know Lord Buddha believe in meditation and as per his schedule he started meditation in Sunny afternoon but he was so into it that he didn't notice time and increasing sun rays. The sun rays was directed to his bald hair. At that moment, snail was passing by the tree to make its way along ground. Snail noticed that the Buddha was in deep meditation in such hot day. Even though Buddha had sat under the tree, the sun rays were directed towards his head. Snail thinking Buddha was soon going to be distracted and loose focus on his concentration due to heavy sun rays, without a second thought. Snail made its way up to the Buddha's head and sat their, with his lubricated body cooling the Buddha's smooth and bare skin. Other snail also followed the first snail, went up to the Buddha's head and sat there. Snails on a Buddha's head it looked like a neat cap of spiral shell. After many time Snail's was cool and dump to maintain the Buddha's meditation continue for hours. Due to heavy sun rays the Snail's was dehydrated and dry. Later In evening when Buddha stood from the meditation, he noticed that he was wearing a cap of 108 Snails, all of whom had gives their lives to make a distraction free environment for Buddha's path to enlightenment.

### CRYPTOCURRENCY

#### **Crypto:**

A cryptocurrency is a digital or virtual currency that is protected by encryption, making counterfeiting and double-spending practically impossible. Many cryptocurrencies are built on blockchain technology, which is a distributed ledger enforced by a distributed network of computers. Cryptocurrencies are distinguished by the fact that they are not issued by any central body. Cryptocurrencies can either be mined or bought on cryptocurrency exchanges. Cryptocurrency purchases are not permitted on all ecommerce sites. In fact, even famous cryptocurrencies like Bitcoin are rarely used for retail purchases. Cryptocurrencies, on the other hand, have become popular as trading instruments because of their increasing value. They are also utilised for cross-border transfers to a limited extent.

#### **BLOCKCHAIN**

Blockchain technology is at the core of Bitcoin's and other cryptocurrencies' attractiveness and usefulness. Blockchain is, as its name implies, a collection of interconnected blocks or an online ledger. Each block comprises a collection of transactions that each network member has independently validated. Every new block must be validated by each node before being confirmed, making forging transaction histories nearly impossible.

The most well-known and valued cryptocurrency is Bitcoin. It was conceived and introduced to the public in 2008 by an unidentified individual named Satoshi Nakamoto through a white paper. Thousands of cryptocurrencies are currently available on the market.

#### **IS IT SAFE?**

Cryptocurrencies, on the other hand, are not backed by any government or corporate entity. As a result, establishing their legal standing in many financial countries throughout the world has proven problematic. The fact that cryptocurrencies have mostly operated outside of the current financial infrastructure doesn't help matters.

#### **Advantages**

Cryptocurrencies are a new, decentralised money paradigm. To enforce trust and police transactions between two participants, centralised intermediaries such as banks and monetary organisations are not required in this system. Cryptocurrencies promise to make it easier to move funds between two parties without the use of a trusted third party such as a bank or credit card provider. Cryptocurrencies promise to make it easier to move funds between two parties without the use of a trusted third party such as a bank or credit card provider.

#### **DISADVANTAGES**

Cryptocurrencies are pseudonymous, despite the fact that they promise to be an anonymous type of transaction. Criminals are increasingly using cryptocurrency for undesirable operations such as money laundering and unlawful purchasing. While cryptocurrency blockchains are extremely secure, other crypto repositories, such as exchanges and wallets, are vulnerable to hacking. Price volatility is a problem for cryptocurrencies traded on public exchanges. Bitcoin's value has risen and fallen rapidly.

### आयुष्य खुप सुंदर आहे !

मला एकदा माझ्या मैत्रिणिने विचारलं तुझ्या दृष्टीने आयुष्य म्हणजे नक्की काय असल. कोणी म्हणतं आयुष्य हे ईश्वराने दिलेली सुंदर देणगी आहे तर कोणी म्हणतं आयुष्य म्हणजे जन्म मृत्यु चा वेढा आहे खरं तरं आयुष्य म्हणजे जगणं आणि जगत असताना प्रत्येक गोष्टींचा घेतलेला अनुभव म्हणजे सुंदर जगणं आणि आयुष्य असतं खरं म्हटलं तर ईश्वराने आयुष्या सगळ्यांना सुंदरचं दिलेल आहे. पण आयुष्य जगायचं कसं ते मात्र आपल्या हातात दिलयं. प्रत्येकाचा जगण्याचा दृष्टीकोन वेगवेगळा आहे. कोणी गरीब असुन सुद्धा सूखी असतं तर कोणी श्रीमंत असुनही दुःखी आहे. कोणी तरी म्हटलेचं आहे की 'आयुष्य तर खुप सुंदर आहे फक्त ते जगता आलं पाहिजे हे दिव्यासारखं असतं कधी विझेल आयुष्य याचा भरवसा नसतो. म्हणून मला असं वाटतं की आपल्याकडे जेवढं आहे तितक्यातचं सुखी रहावं आणि जगतं असताना सुखा दुखाचा सामना तर करावाचं लागतो पण त्यातुन पुढे चालतं रहाव आणि प्रत्येक गोष्टीचा अनुभव आणि आनंदघेत ईश्वराने आपल्याला जितक आयुष्य दिलाय त्याला अजून सुंदर बनवा.

### नाशिकची थंडी

थंडी म्हटले की लगेच अंगात हुडहुडी भरते. कारण थंडीच आहे एवढी त्यामुळे ना सकाळी लवकर उठून जाते जा व्यायाम केला जातो. पहाटे पहाटे मस्तपैकी धुकं पडलेलं असतं एकदम छान दिसतं.

नाशिकची थंडी म्हटली की सगळ्यांना चाटते वाटतं बापरे! तिथे केवढी थंडी असेल ना आणि ते खरंच आहे. नाशिकचा जास्त डोंगरातू भाग असल्यामुळे थंडी जास्त पडते शिवाय गोदावरीचा उगम झाला असल्यामुळे थंडी हवेत गारवा सतत जाणवतो तसेच पांडवलेणी, त्र्यंबकेश्वर, अंजनेरी या सगळ्यांमुळे ,

थंडीचा एक वेगळाच आनंद आहे थंडीला अनेक वेळा ' गुलाबी थंडी' असे म्हटले जाते कारण स्पर्श थंडी छान गुलाबासारखे हळूवारपणे अंगाला करते आणि वातावरण थंडगार निर्माण करते नाशिकला पाऊस जास्त पडत असल्यामुळे थंडीपण जास्त असते. थंडीचा

नाशिकच्या थंडीचा खरा आनंद म्हणजे मस्तपैकी लाकूड पेटवून शेकोटी करणे तसेच त्यावर बटाटे भाजणे आणि त्याचा आस्वाद घेणे यात एक वेगळीच मजा आहे आणि कडक चहा पिणे जणू काही स्वर्गच आहे. शेकोटी करताना सगळे मिळून गप्पा मारणे यात जे सुख आहे ते एक 1 कदाचि दुसऱ्या कोणत्या गोष्टीत मर नसेलही, थंडी वाढली की छान जाड दुलई किंवा ब्लॉकेट. घेऊन झोपणे आणि त्यातून उच वाटू नये असे सगळ्यांसोबत घडते. हळूहळू ऊन आले की कमी व्हायला लागते आणि उन्हाचा चटका जाणवायला लागते मग संध्याकळ परत असते. थंडी वाजायला लागते असे चक्र चालूच

### • मेहनत •

मंजिल मजबूर हो जाए मिलने से  
तुम कोशिश इस शिद्दत से करना  
रास्ते में होते ही है अंधेरे  
मुसाफिर हो कामयाबी के, अंधेरो से क्या डरना

करना है मेहनत इस कदर तुम्हे  
के आए मुसीबत तो ना मुकरना  
ये मेहनत ही तो ज़िन्दगी है मेरे दोस्त  
बेगैर इसके क्या जीना क्या मारना

डर लगता है ऊंचाई पर जाने से  
लेकिन जाने से पहले ही क्या मरना  
ये हकीकत है ज़िन्दगी की  
कामयाबी झुके आगे मेहनत इस कदर करना

ना डरना हालातों से अपने तुम  
जैसे हो वैसे रहना  
यही तो शान है अपनी मेरे दोस्त  
के ये मुश्किलात तो अपना घर है ना

कभी कमज़ोर नहीं होते वोह लोग  
जिन्हें आता है मुसीबत में अकेले रहना  
जो समझ गए बातें मेरी ये

## SANDIP KRIDAMAHOOTSAV

**P**hysical education is an integral part of our education system. It helps the attainment of the ultimate aim of education i.e. the achievement of holistic development.

Sports play a pivotal role in the student's life. The sports develop discipline, the spirit of sportsmanship and inculcate the qualities of team spirit and leadership among the students. Either studying or working alone makes us exhausted. We are no longer efficient at doing any work. Sports remove our mental exhaustion. Education without sports is incomplete.

Considering Sports for all throughout the entire session, we organized inter-department tournaments for students as well as some sports activities for staff (teaching and non-teaching) This venture has enabled the students to have fun, learn new sports, enhance social interaction and test one's physical capability. These competitions also offer a break from daily routine tasks and recreate or re-energize them.

The sports inaugural ceremony was done by Prof. .P. M. Dharmadhikari, Principal Sandip Polytechnic. All the HODs, faculty members and students were present for the ceremony.

The sports matches were scheduled from 1st November to 3rd November 2022. All the students and faculties participated enthusiastically in various sports activities.

Different sports events like Cricket, Volleyball, Table Tennis, Badminton, Chess, Carrom, athletics, kho-kho, Kabbadi, football, Weight lifting have been organized and executed in Sandip kridamahotsav .

This activity has helped our students to develop their leadership quality, time management and stress management skills, and sportsman spirit. All the students have enjoyed the event with full enthusiasm.

## TEACHERS' DAY

**T**he influence of teacher makes on an individual extends beyond the classroom. Teachers put in tremendous effort to understand their students and cater to them wholeheartedly. They take much care in moulding the character of their students, thereby helping them grow into compassionate and socially responsible individuals. Teachers' day is an occasion for us to remember our dear teachers and be grateful to them for the role they play in our lives.

A teacher is the building block on which a society is built. The responsibility of a teacher is huge as they perform the job of shaping intellectual and creative minds who turn out to be the future of society. In Dr. Radhakrishnan's opinion, "Teachers should be the best minds in the country". Celebrated in his honour, Teachers' day turns out to be a day to remember, appreciate, applaud and thank our teachers for providing us intellectual and moral guidance and support.

No matter how old we grow, there are a few teachers with whom we would like to share the progress we make in our lives, some who understand and believe in us more than our parents do, some whom we would run to no matter when and where we catch sight of them and some who turn out to be great friends apart from being wonderful teachers.

Teachers' day is a chance to let these teachers know how much of an influence they have made in our lives. Sometimes, it is just another occasion; it is not necessary that you have to wait until Teachers' day to show your gratitude towards them for their constant love and support.

Teachers' day can be a day for teachers to rethink their role and responsibilities as a teacher and for students to understand the importance of having teachers who really care for them.

## पॉलिटेक्निकनंतर नोकरी मिळते का भाऊ? ९,२५४ जागांसाठी ९,९७६ विद्यार्थ्यांचे अर्ज !

आयटी, रोबोटिक टेक्नॉलॉजीसह इलेक्ट्रिकल अभ्यासक्रमांकडे वाढला विद्यार्थ्यांचा कल

लोकमत न्यूज नेटवर्क नाशिक : जिल्ह्यात २७ पॉलिटेक्निक डिप्लोमा कॉलेज असून यात ९ हजार २५४ प्रवेशक्षमता आहे. या जागांवर प्रवेश मिळविण्यासाठी सुमारे ९ हजार ९७६ विद्यार्थ्यांचे अर्ज निश्चित झाले आहे. परंतु, यातील बहुतांश विद्यार्थ्यांच्या मनात पॉलिटेक्निकनंतर नोकरी मिळते का रे भाऊ, असाच प्रश्न आहे.

पॉलिटेक्निक प्रवेशासाठी अर्ज करणाऱ्या काही विद्यार्थी पसंतीचे अभ्यासक्रम न मिळाल्याने अथवा चांगल्या महाविद्यालयात विज्ञान शाखेला प्रवेश मिळाल्यामुळे स्पर्धेतून बाहेर पडण्याची शक्यता असल्याने एका जागेसाठी एक विद्यार्थी असेच समीकरण दिसून येणार आहे. त्यामुळे अभ्यासक्रमांचा पसंतीक्रम बदलून प्रवेश घेण्याची तयारी दाखविणाऱ्या जवळपास सर्वच विद्यार्थ्यांना पॉलिटेक्निकला प्रवेश मिळण्याची शक्यता आहे. दरम्यान, पॉलिटेक्निकसाठी केंद्रिभूत प्रवेश प्रक्रियेतर्गत पहिल्या फेरीचे वेळापत्रक जाहीर करण्यात आले आहे.

जिल्ह्यातील पॉलिटेक्निक महाविद्यालये २७  
०९ शासकीय  
२६ खासगी

एकूण प्रवेश क्षमता ९९७६  
८९९ शासकीय  
९९७७ खासगी

९२५४ हजार जागांसाठी ९९७६ अर्ज !

९ हजार २५४ प्रवेश क्षमता आहे. या जागांवर प्रवेश मिळविण्यासाठी सुमारे ९ हजार ९७६ विद्यार्थ्यांचे अर्ज निश्चित झाले आहे. यातून काही विद्यार्थी पसंतीचे अभ्यासक्रम न मिळाल्याने अथवा चांगल्या महाविद्यालयात विज्ञान शाखेला प्रवेश मिळाल्यामुळे स्पर्धेतून बाहेर पडण्याची शक्यता आहे.

म्हणून पॉलिटेक्निकला पसंती...

आयटीकडे विद्यार्थ्यांचा ओढा

कोरोना संकटकाळात माहिती व तंत्रज्ञान (आयटी) क्षेत्रात मोठ्या प्रमाणात नोकऱ्यांची संधी निर्माण झाली आहे. त्याचप्रमाणे आयटी क्षेत्रात नोकरी करण्यासाठी आता पूर्वीप्रमाणे घरापासून दूर जाण्याची गरजही उरली नाही. त्यामुळे आयटीकडे विद्यार्थ्यांचा कल वाढला आहे.

अंतिम गुणवत्ता यादी जाहीर

पॉलिटेक्निकसाठी केंद्रिभूत प्रवेश प्रक्रियेतर्गत गुणवत्ता यादी जाहीर झाली असून १९ ऑगस्ट रोजी प्रवर्गानिहाय जागांची यादी प्रसिद्ध केली जाणार आहे. कॅंप राउंडसाठी शाखा व महाविद्यालयांचा पसंतीक्रम २० ते २३ ऑगस्ट या कालावधित नोंदविण्यात येणार आहे.

पॉलिटेक्निक अभ्यासक्रमांनंतर कमी अधिक वेतनावर तत्काळ नोकरीची संधी उपलब्ध होते. त्यामुळे कर्दुबीयांकडून पॉलिटेक्निक डिप्लोमा करण्याचा सल्ला दिला जातो. शिवाय पॉलिटेक्निकनंतर इंजिनीअरिंगही सोपे होते.

- किरण डोंगरे, विद्यार्थी

पॉलिटेक्निक अभ्यासक्रमांनंतर इंजिनीअरिंग पदवी मिळवण्यास सोपे जाते. आयटी इंजिनीअरिंग पदवी अभ्यासक्रमासाठी डिप्लोमाची पाश्चिमी असेल तर पदवी पूर्ण करताना नोकरीची संधी मिळते. त्याचा भविष्यातही फायदा होतो.

- अश्विनी पगारे, विद्यार्थिनी

प्रवेश कधीपासून?

विद्यार्थ्यांना मिळालेले जागा वाटप व गुण, प्रवर्ग, आरक्षण याबाबतची माहितीची पडताळणी करून महाविद्यालयांमध्ये प्रवेशाची स्वीकृती करण्यासाठी २६ ते २९ ऑगस्टदरम्यान करण्यात येणार आहे. प्रवेशाची निश्चिती करण्यासाठी २६ ते ३० ऑगस्ट ही मर्याद देण्यात आली आहे.

गेल्या चार-पाच वर्षांपूर्वी पॉलिटेक्निक डिप्लोमाकडे वळणाऱ्या विद्यार्थ्यांचा कल काहीसा कमी झाला होता. मात्र कोरोना संकटानंतर पुन्हा विद्यार्थी डिप्लोमा अभ्यासक्रमांकडे वळत असून यात माहिती व तंत्रज्ञान (आयटी) विद्या शाखेकडे विद्यार्थ्यांचा कल अधिक असल्याचे पॉलिटेक्निक डिप्लोमाचे प्राचार्य सांगतात.

जिल्ह्यात सुमारे २७ अभियांत्रिकी पदविका महाविद्यालये आहेत. त्यात बहुतांश विद्यार्थी आयटी, कृत्रिम बुद्धिमत्ता तसेच इलेक्ट्रिक अभ्यासक्रमांना प्रवेश घेण्यासाठी प्रयत्न करीत असल्याचेही काही प्राचार्यांनी सांगितले.
