

SANDIP FOUNDATION'S
SANDIP POLYTECHNIC, NASHIK
DEPARTMENT OF MECHANICAL ENGINEERING
Academic year- 2023-24

Date: 16/01/2024

Name of Event: Intensive Training in Engine and Transmission System

Date of Event: 16/01/2024

Resource Person: Not specified.

Venue: Mechanical Department, Sandip Polytechnic, Nashik

Objectives:

- To initiate an intensive training program focusing on Engine and Transmission System for third-year Mechanical Engineering students.
- To deepen students' understanding of engine and transmission components, functions, and operations.
- To provide hands-on training and practical experience in engine assembly, disassembly, and troubleshooting.
- To enhance students' technical skills and competencies in automotive engineering.

Outcomes:

- 1) Students received comprehensive training on engine and transmission systems, covering theoretical concepts and practical applications.
- 2) Practical demonstrations and hands-on sessions enabled students to gain insights into the assembly, disassembly, and maintenance of engines and transmissions.
- 3) The program equipped students with valuable skills and knowledge essential for pursuing careers in automotive engineering and related industries.

Students: Third-year Mechanical Engineering students
